2K RESOLUTION

WP11 Tablet beckons you to a visual feast with its **2K ultra high resolution**; experience perfection in every pixel. Clarity and color saturation combine with stunning detail on this unparalleled display, completely redefining your viewing experience.

CORNING GORILLA GLASS 3

Corning Gorilla Glass 3 is a highly durable glass specifically designed for tablets. This technology provides superior protection against scratches and impacts, keeping your device's screen looking like new, always.

EMBRACE YOUR PRIVACY STYLE

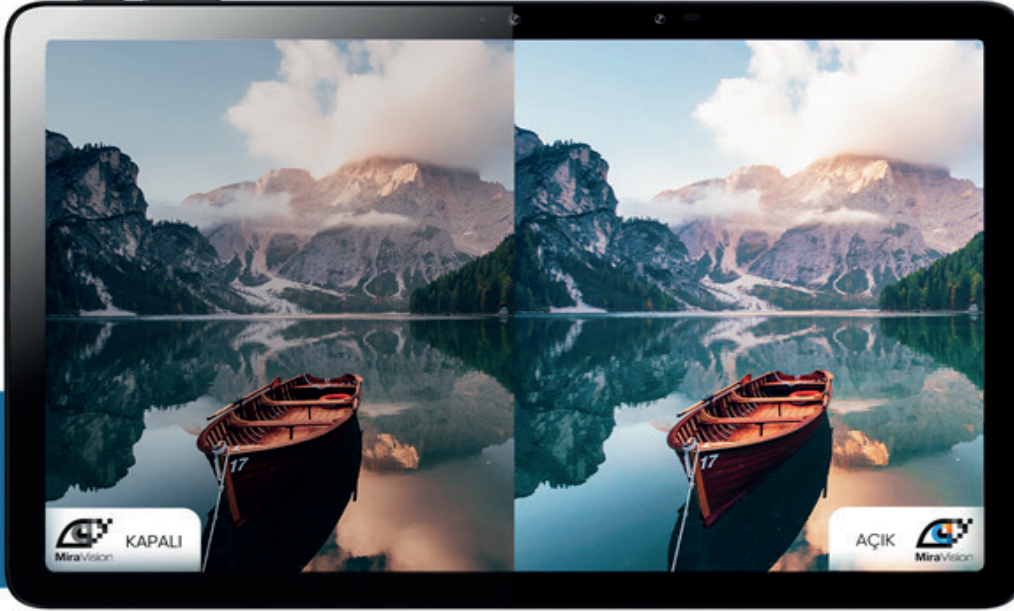

For timeless elegance, choose Silver; for a contemporary touch, select Rose Gold; and for an embodiment of seriousness and professionalism, opt for Black. Each color has been meticulously chosen to reflect the user's personal style and establish a harmonious connection with their everyday tablet.

- Rose Gold
- Silver
- Black

Miravision Technology is an image processing technology developed by MediaTek. This technology is designed to improve image quality on smartphones, tablets, and other mobile devices.
